SUMMARY

I'm a Backend Developer from Bogor, Indonesia, graduating in 2025 from SMK Wikrama Bogor in Software Development. I have strong communication skills, work well in teams, and am punctual. Passionate about tech, especially Website and AI development, with experience in TensorFlow and Laravel. My latest project is an AI Pose Recognition app, focusing on Data Science skills. I'm committed to building a career as a Backend Developer and always eager to learn and grow.

WORK EXPERIENCE

Full Stack Developer, PT. Nigmagrid Indonesia   Jan 2024 - July 2024
- Successfully developed new application features and layouts using CodeIgniter, and implemented AI solutions with TensorFlow.
- Collaborated with team members to analyze UI requirements based on client needs and implemented modern design concepts and user interfaces.
- Ensured seamless AI integration with the backend team to enhance application performance.

Backend Developer, Freelancer   October 2024 - October 2024
- Use OpenCV/MediaPipe for movement detection, control objects with Pygame for rendering and logic.
- Create 2D sprites, animate with blit(), add sound with Pygame's mixer, and design menus, HUD, and backgrounds.

Backend Developer, Wikrama Bogor project work   August 2024 - november 2024
- Successfully developed a Face Recognition application using OpenCV and TensorFlow, enabling real-time facial detection and identification through a webcam and dataset.
- Collaborated with the backend team to integrate APIs, optimize functionality, and connect TensorFlow with the Laravel website for smooth AI model deployment.

EDUCATION

July 2022 - June 2025

SMK WIKRAMA BOGOR

Software Engineer
- Studying the fundamentals of programming, including Flowchart, Entity-Relationship Diagram (ERD), Activity Diagram, Database Normalization, and Use Case.
